

Kevin Andrews

Full Stack Developer

Proficient in front-end technologies including HTML, CSS, and JavaScript, with hands-on experience in React.js. Familiar with back-end technologies such as Node.js and MongoDB. Strong problem-solving abilities and a fast learner, eager to apply theoretical knowledge to real-world projects. Dedicated to contributing to innovative web solutions and committed to continuous professional growth. Ready to bring enthusiasm, dedication, and a fresh perspective to a Full Stack Development role.

EDUCATION

Jayam college of Engineering and Technology,
Dharmapuri— *Bachelor of Engineering, Mechanical*

May 2017

CGPA: 7.5/10

TECHNICAL PROJECTS

Doctor Appointment Booking Website

- **Technologies used :** React.js, Nodejs / Express.js, MongoDB & Git / Github.
- **Description :** Developed a web application that allows users to book, modify, and cancel doctor appointments. Created user-friendly interfaces and implemented secure authentication for both patients and doctors. Managed appointment scheduling, user profiles, and notifications. Ensured the platform was responsive and optimized for performance, with secure data handling and deployment.
- **Outcomes :** Gained practical experience in web development, improved problem-solving skills, and strengthened ability to build user-focused, scalable applications.

Food Delivery Website

- **Technologies used :** React.js, Nodejs / Express.js, MongoDB & Git / Github.
- **Description :** Developed a responsive platform for users to browse restaurants, order food, and track deliveries in real-time. Implemented user authentication, payment integration, and order management features. Focused on creating a seamless user experience with secure transactions, optimized performance, and mobile responsiveness. Managed backend processes for order tracking, delivery logistics, and customer profiles.
- **Outcomes :** Gained practical experience in developing complex web applications, enhancing skills in user interface design, real-time data management, and secure payment processing. Improved ability to create scalable and performance-optimized platforms.
